

The Cloud – Self-Service Visitor Wi-Fi at Merton College

‘The Cloud’ is a public access WiFi service run by Sky UK. Merton provides ‘hotspots’ for connection which may also be found in many other areas of Oxford and the country.

From your device select **The Cloud** SSID:

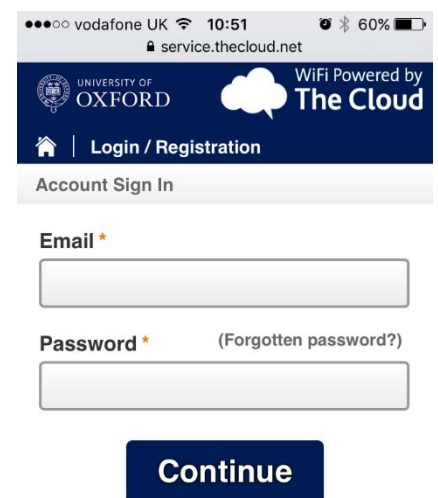

Once connection is made, open your internet browser and attempt to visit a web-page to open the welcome pages (if not automatically directed, then enter:

<https://service.thecloud.net/>)

Once you can see the welcome page, click the **Go** button:

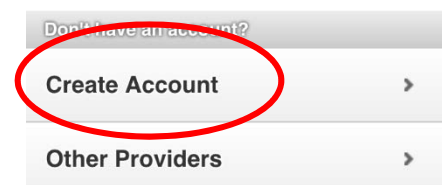

On the Login / Registration page, either enter your details if you currently have an account, or click the ‘Create Account’ link in order to register:

Once connected you can use your browser, email or other internet network reliant programs.

The process of opening the browser and clicking ‘Go’ may also be required during reconnection on some devices.

We hope you find this service useful.

Please be aware that Merton College has no control over this service and are unable to assist with any further device and/or connection issues to the WiFi service provided by Sky UK.
