

Economics and Management Admissions: Summary Data for Candidates

This note gives summary data for the Oxford University Economics and Management admissions exercise October-December 2019 for entry in October 2020 or 2021.

Total applications, excluding candidates who withdrew: 1,525

Of which:	Female	(574) 37.64%
	Male	(951) 62.36%
	2020 entry	(1,499) 98.30%
	2021 entry	(26) 1.70%
	UK (home)	(764) 50.10%
	EU	(194) 12.72%
	Overseas	(567) 37.18%
	Open application	23.52%
	Named first choice college	76.48%

Candidates shortlisted for interview 308 (20.2% of applicants)

Number of offers made 100 (6.56% of applicants)

Candidates were shortlisted for interview according to the factors in the following table with weights – High/Medium/Low – as indicated. For those shortlisted, performance at interview is an additional assessment factor considered alongside those shown which remain important.

Factor	High	Med	Low
Thinking Skills Assessment (TSA) Test	•		
GCSE (or similar) profile	•		
Predicted performance at A-level (or similar)	•		
UCAS reference		•	
AS level module grades (if taken)			•
UCAS personal statement			•

For guidance, information is also presented on the distributions of scores on the multiple choice part of the TSA test (more detail and individual results are available at <http://www.admissionstestingservice.org/for-test-takers/thinking-skills-assessment/tsa-oxford/scoring-and-results/>) and the number of 9/8/A* grades at GCSE. While these two indicators are significant it is emphasised that they form only a part of the assessment of candidates.

<u>TSA Overall Score</u>		<u>Number of GCSE 9/8/A*s</u>	
25 th percentile	59.97	25 th percentile	6
Median	64.04	Median	8
75 th percentile	69.52	75 th percentile	10
